

RAHUL SINGH SOLANKI

Indore, M.P. | [+91-8602670480](tel:+91-8602670480) | rs.singh1812@gmail.com | linkedin.com/in/rahulsolanki1818

SUMMARY

Accomplished **Technical Lead** and mobile application developer with **8 years of experience** in cross-platform mobile development, specializing in **React Native, iOS, and Android** applications. Highly experienced in Agile methodologies, **architecture design**, and technical strategy. Excels at both independent complex technical problem-solving and **collaborative team leadership**, consistently guiding engineering teams to **deliver high-quality, scalable products** on schedule.

SKILLS

- **Frameworks & Platforms:** React Native (5.5 Years), iOS (1.5 Years), Android (4 Months)
- **Programming Languages:** JavaScript, TypeScript, Swift, Objective-C, Kotlin
- **Development Tools:** Xcode, VSCode, Cursor, Android Studio, Git, GitHub
- **CI/CD & DevOps:** Jenkins, Fastlane, Firebase App Distribution
- **Monitoring & Analytics:** Sentry, Crashlytics, Bugsnag, Google Analytics
- **Methodologies:** Agile Development, Scrum, Sprint Planning, Architecture Design

EXPERIENCE

JuniperSquare

January 2026 – Present

Technical Lead | Bengaluru (Remote)

- Engineered and integrated **major foundational organizational data pillars** into the platform, specifically Offerings, Prospects, and Entities.
- Directed the **end-to-end delivery** of complex, large-scale, and extra-large technical projects, ensuring **100% on-time completion** with **zero production bugs**.

Washmen

November 2025 – January 2026

Senior Mobile Developer | Dubai (Remote)

- Resolved **critical app-level navigation conflicts** involving modal presentations, significantly **improving user flow** and application stability.
- Developed and launched the **mobile application integration** of "WF Plus" (Wash & Fold Plus), a major new core service offering.

Housing.com

July 2023 – October 2025

Team Lead | Gurugram, Haryana, India (Remote)

- Modernized the Housing App by migrating to the **React Native New Architecture (0.79.5)**, building **custom TurboModules and Fabric components** for improved rendering performance.
- Implemented **split bundle loading** for cross-platform optimization, transitioning to synchronous communication patterns and achieving a **25% improvement in thread performance**.
- Enhanced team productivity through **systematic technical issue identification** and rapid resolution, achieving a **99% on-time delivery rate** for product features.
- Set up and maintained **Android and iOS CI/CD pipelines on Jenkins**, achieving a **99% build creation success rate**, and designed an automated cleanup pipeline to resolve storage constraints.
- Automated build creation and uploads to **Firebase App Distribution**, reducing build delivery time to QA by **80%** and increasing overall testing efficiency.
- Integrated Ricoh and GoPro 360-degree camera devices to capture and create immersive digital property tours.

Housing.com

March 2022 – July 2023

Senior Software Development Engineer | Gurugram, Haryana, India (Remote)

- **Upgraded the React Native version** from 0.63.4 to 0.69.4 for the Housing app and resolved technical debt by updating outdated blocking libraries.
- Created **generic, reusable components** to reduce code duplication and **decrease render time by 20%**.
- Implemented **server-driven UI elements** to minimize the risk of deployment issues affecting 100% of the active user base.

Deqode Solution

October 2020 – March 2022

Senior Solution Engineer | Indore, Madhya Pradesh, India

- Coordinated directly with clients to analyze feature requirements and accurately plan deliverables during **Agile sprint cycles**.
- Crafted a custom iOS share image extension simplifying post creation from the native gallery, driving a **30% increase** in overall post creation.
- Developed and delivered a **proof-of-concept Distributed Delivery app** from scratch using React Native to demonstrate **Fetch.ai technology**, earning inclusion in the official Fetch.ai portfolio.

Newput Infotech Pvt Ltd.

August 2018 – October 2020

Software Engineer | Indore, Madhya Pradesh, India

- Collaborated on the Activity Hero iOS app, successfully launching on schedule with **full web feature parity**, resulting in direct client appreciation.
- Engineered the HydroOttawa utility app using **React Native** from inception to **Google Play Store deployment**, incorporating server-driven features.

PROJECTS

- **Housing App:** Architected **seamless React Native to native code integration** across Android and iOS platforms, improving app performance by 20%.
- **Tiny View (Comic Reader App):** Developed a comic reader platform from scratch in React Native, supporting tiny devices, in-app purchases, offline caching, and **deep-link integration**.
- **Gaggle-Amp (Social Advisory App):** Developed a social advocacy app enabling companies to leverage employees for social media marketing activities.
- **WeVideo (Video Editing App):** Developed a cloud-based video editor with features for creating and editing videos, custom animations, and Adobe After Effects motion titles via the Squall library.

EDUCATION

Bachelor of Engineering in Computer Science (CGPA: 7.43)

2014 – 2018

Rajiv Gandhi Proudlyogiki Vishwavidyalaya (RGPV), Bhopal

12th Grade - Higher Secondary (Score: 86.7%)

2014

Mahavir Bal Mandir, Indore — Awarded 25,000 INR scholarship for academic excellence

AWARDS & INVOLVEMENT

- **Team Leadership:** Architected new features, resolved core app pain points, and successfully led multiple 3+ developer teams.
- **Engagement Champion:** Awarded "People Manager Engagement Champion" recognition based on Housing MIC count survey results.
- **Spotlight Award:** Received spotlight appreciation for successfully integrating the seller's React Native and Android native codebases.
